- **Meets demands of small and large projects**
- **Software deployed on-site, cloud-based, or at secure facility**
- **Data recognition finds information anywhere**
- **Handprint, cursive, and machine text capable**

WORKFLOW

TESTIMONIALS

We deployed the solution to redact social security numbers, driver's license numbers, credit card numbers and numerous other account numbers from 30 million pages of historical documents in three back divisions. We have successfully processed 4.3 million pages of our back-filed documents and we're protecting day-forward documents as well.

REDACTED

Extract Systems is the fastest, most accurate redaction software available. Our redaction solution guarantees 99% post-verification accuracy and stays up-to-date with redaction law changes. Using proven rulesets from over 400 customers today, we support privacy standards in all 50 states and still allow the rules to be easily tailored to customer-specific requirements.
