

What Our Software Can Do For Your Organization...

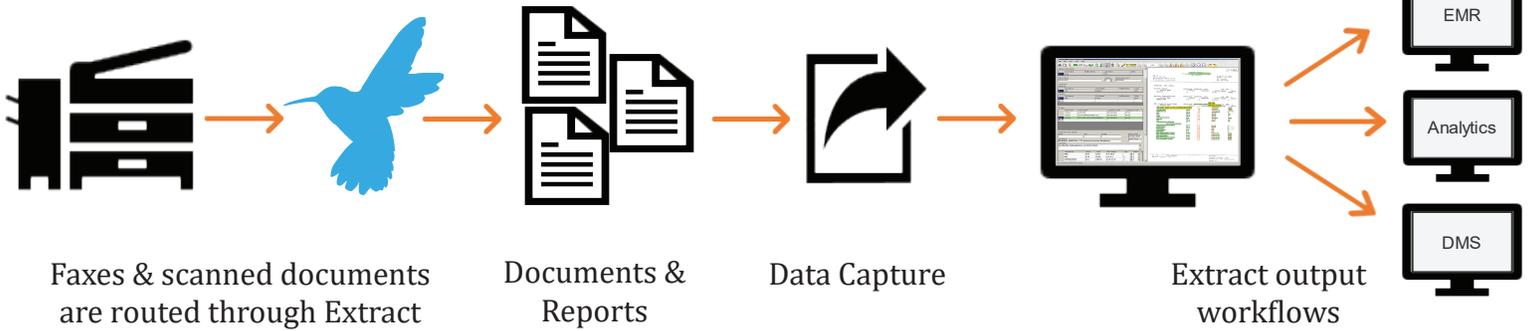

Varied inputs (Unstructured) faxes and other documents)

Documents are automatically recognized, sorted, & routed to the correct extraction workflow

Valuable data is extracted & structured based on your standards

Data verification is done in an interface that supports exception handling

Data is normalized & sent to downstream systems

Features & Benefits

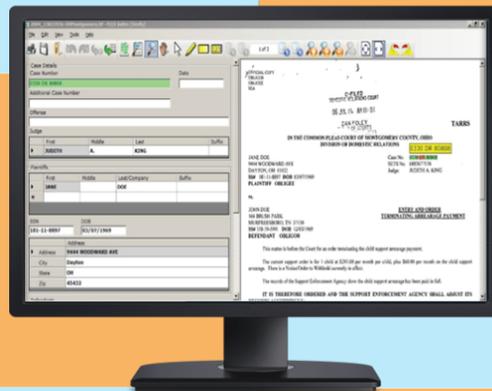

Automation = Less Manual Work

Document routing is fully automated from the moment a file arrives to your organization until it is safely and properly stored in the right place in your desired systems.

Time Savings

Extract reduces the time it takes for unstructured data or documents to reach the correct systems, with correct and consistent data. Urgent documents are processed within minutes.

Reduction in Paper Usage

Workflow Standardization Across Clinics & Departments

Data Standardization

Extract automatically translates and renames incoming documents and data into values your EMR or other databases are expecting. This feature allows your organization to keep naming conventions and data labeled consistently, and guarantees staff can easily find documents or data.

Less Manual Handling = Better Security

Extract automatically retrieves documents and data from secure network folders and maintains your security protocols to allow access to those documents for review before ultimately sending them securely to your desired storage location.

extract

HOW UNSTRUCTURED DATA COSTS
YOUR HEALTHCARE ORGANIZATION

90%
Of hospitals
enter data manually

Extract reduced data entry
time by 80%*
UW HEALTH TRANSPLANT PROGRAM

**“Documents taking 48 hours or longer to populate into
the EMR now take less than two hours”**

TANGIBLE COST OF UNSTRUCTURED DATA

FOR 10 DOCTORS  8 interruptions /day spent searching for documents = 100 hrs OR **\$120,000** annually

FOR 10 NURSES  8 interruptions /day spent searching for documents = 100hrs OR **\$39,000** annually

BENEFITS

- Error Reduction
- Complete Patient Record
- Clinician Productivity
- Automate ALL Incoming Outside Documents
- HIPAA Data Compliance
- Reporting & Analytics

366%

INCREASE IN
DOCUMENT PROCESSING

78%

Productivity increase
(8 to 14.25 documents/hr)

40%

Reduction of data
entry time

Processed over 189,000 orders with over 1.4
million test components into the EHR
